## Shape the future of lung health technology

### If you..

- Live with a **chronic lung condition** (such as asthma, COPD, pulmonary fibrosis and others)
- Believe you **might be living with a lung condition based on symptoms or tests**
- Think you **may be at high risk** of developing a lung condition (e.g. due to smoking, housing, family history)
- **Care for someone** with a chronic lung condition

Take a short survey to tell us about your biggest challenges and views on how technology can help

**SCAN ME**  
to learn more

If you have any questions about the project or participating, please contact our team at [heron@phc.ox.ac.uk](mailto:heron@phc.ox.ac.uk) or on **0808 2524539**

## Shape the future of lung health technology

### Are you a health or care professional

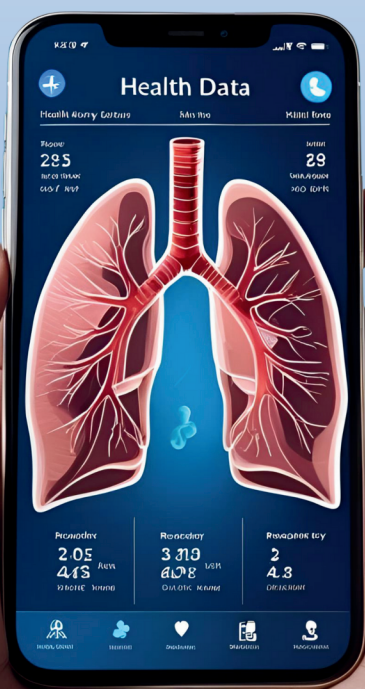

caring for adults and children living with, or at risk of, **chronic lung disease**?

Take a short survey to tell us about your biggest challenges caring for people with chronic lung diseases and views on how technology could help!

Open to  
professionals  
working  
across all :

- **care settings** (e.g. primary/secondary/community care, rehabilitation, smoking cessation services)
- **disciplines** (e.g. GPs, respiratory specialists, practice or specialist nurses, physiotherapists, pharmacists, social care workers)
- **stages of the patient journey** (e.g. screening, diagnosis, management, palliative care)
